

This video training series provides an in-depth look at the usage and benefits of a new PartsWatch Grid introduced in R59.

The following short videos describe features and functionality of the new PartsWatch grid, introduced on the Purchasing Dashboard screen. The functions described in these videos apply to any screen that uses the new grid, however, the Purchasing Dashboard grid is used in the examples.

The video below describes the series.

 [PartsWatch Grid Overview](#) – 1 minute

This next video in the series goes over the components of a grid layout.

 [PartsWatch Grid Layout](#) – 2 minutes

The following videos go over a wide variety of features each having to do with the grid columns.

 [PartsWatch Grid Column Width](#) – 1 minute

 [PartsWatch Grid Column Order](#) – 1 minute

 [PartsWatch Grid Column Hide Show](#) – 2 minutes

 [PartsWatch Grid Column Sorting](#) – 3 minutes

The following videos pertain to the filtering functions within the grid.

 [PartsWatch Grid Column Filtering](#) – 3 minutes

 [PartsWatch Grid Auto Filter Row](#) – 2 minutes

This next video reviews the various functions available to single or multiple rows.

 [PartsWatch Grid Single & Multi Row Select](#) – 1 minute

This next video details how to search for data within a grid.

 [PartsWatch Grid Finding Data](#) – 2 minutes

In the following video, learn how to display aggregate data at the bottom of grid columns.

 [PartsWatch Grid Footer Summaries](#) – 2 minutes

The following video teaches you how to group grid data.

 [PartsWatch Grid Grouping Data](#) – 2 minutes

In this next video series, Part I reviews formatting cells or rows that meet a condition. Part II reviews formatting cells based on relative data within a column.

 [PartsWatch Grid Conditional Formatting – Part 1](#) – 5 minutes

 [PartsWatch Grid Conditional Formatting – Part 2](#) – 4 minutes
